Stu Massey	Julia Eskelson	Deirdre Macnab	Ian Wilson
Travis Day	Jerry Oldland	Chris Collins	Don Reed
Michael Dillon			

**Technical Advisors:**

Mario Sullivan	James Roberts	Curtis Keetch
----------------	---------------	---------------

**WRIWI**

Callie Hendrickson	Elizabeth Chandler
--------------------	--------------------

**Guest:**

Robert Hampson, BLM Hydrologist

**Outcomes**

- Final edits made to the Reach and Phase II Reports
- Initial SOW drafts refined for presentation to Public Input Meetings
  - Small reservoir renovations were removed from Phase III

**Minutes**

Several edits were made to the reach and Phase II Report. The changes will be made by the PAC coordinator and those changes emailed out to PAC members for their review.

The Scope of Work for Phase III projects were reviewed. The PAC decided to remove small reservoir renovations from the Phase III Scope of Work. It is felt the Conservation Districts already conduct this program and we would be duplicating those efforts.

See attached Scope of Work for the current draft of these SOW. This draft will be taken to the Public Input meetings for comments. Those comments will be brought to the PAC and the PAC will produce a final version to move forward with for grant purposes and work planning.
